# SUSTAINABILITY

---

At Outstanding Displays we are committed to sustainable event practices. We have taken several steps to ensure that we are reducing our carbon footprint

One of the key ways we achieve this is ensuring that all of our build materials are able to be reused, or recycled at the events conclusion.

## ECO-FRIENDLY EXHIBITIONS

Another key initiative is our Trees for Displays program. Choose us as your supplier and we will plant at least one tree for every exhibition booth and feature area we build.

Let us be sustainable for you.
